- 28,131 cases of child abuse reported and addressed
- 645 Ace Child Clubs teaching 124,467 children about child rights
- 218,850 adults and children food secure
- 150,000 people learn about hygiene, health, sexual reproductive health, rights, Covid and the environment thanks to the Ace Africa drama team

Amazing results in 2022

- ◇ **New skills and business training for 270 vulnerable young people in Arusha, Tanzania** – average monthly household income up from £17 to £192
- ◇ **610 girls and young mothers accessed sexual and reproductive health services in Siaya County, Kenya**, helping them to stay safe and plan their lives
- ◇ **400 disadvantaged girls and boys in 10 rural Tanzania schools improve attendance, academic performance, physical and mental health** by taking part in the Ace Africa Future Stars football league
- ◇ **Government policy supporting the mental and emotional health of orphaned children in Western Kenya** informed by the 14th year of Ace field research

The climate emergency, COVID 19 and the war in Ukraine made a bad situation worse for the poorest families in Kenya and Tanzania – poverty, food insecurity, sexual violence increased.

Examples of how Ace will help people take control of their lives in 2023 and beyond:

.....

Skills training and start-up funding for the unemployed will generate reliable income that will feed families for years to come

.....

Teaching children about their rights, and how to protect them will reduce child labour, early marriage and keep children in school

.....

Access to essential sexual/reproductive health information and services for young women will reduce sexually transmitted diseases and help women choose when to start a family

.....

HIV and AIDs testing and awareness will reduce infection rates and the stigma of the disease
